

Entries swell:

Shorthorn pen numbers stretch 1981 show size

By RALPH HEINEMANN

A single class of seven pens of a Shorthorn and Polled Shorthorn bulls swelled this entry to one of the largest of modern times at the 1981 National Western Stock Show.

Berg's Shorthorns, Osage, Iowa, repeated 1980 performance in this class

with the win of the champion pen award. All their entries were red! All were Polled!

Mohr's Polled Shorthorns, Cottonwood, Minn., were reserve champion pen of 5.

The entry from the older class, R. Lee Johnson,

Franktown, Ohio, won the championship. They included two reds and a red and white that scaled 1665 lbs. each.

The reserve pen of three were senior bull calves from Richard Dolginow, Excelsior Springs, Mo. They weighed in at 1275 lbs. each and included a roan, a red and a red and white entry.

In the pen show, a total of 62 individual bulls made this the largest show in recent times.

SHORTHORN PENS
Judge: J.W. Bruns, Ottawa, Kan.

Pen of five bulls calved prior to 9/1/79—5 shown: 1. The R. Lee Johnsons, 2. Willow Crest Shorthorns, Polo, Ill.

Pen of three bulls calved after 9/1/79—4 shown: Richard H. Dolginow, Excelsior Springs, Mo. 2. Robert Miller, Fordville, N.D.

Champion pen of three bulls: R. Lee Johnson Reserve: Richard H. Dolginow. Champion pen of five bulls: Berg's Shorthorns. Reserve: Mohr's Polled Shorthorns

SALE CHAMPION—Spruce Hill Image, exhibited by Debbie Gilbraith, Atkinson, Ill., was the champion Shorthorn sale bull at the 1981 National Western Stock Show. The bull calf champion sold at the top of the national sale for \$7900 to Arrowhead Farms, King City, Mo.

Stallion leads sale:

Quarter Horse winner chalks up another one

By JERRY YORK

Otne's Cody, 1975 sorrel stallion sired by Otne's Wonder and out of a Lee's Boot mare, topped the Rocky Mountain Quarter Horse Assn. Breeder Sale at the National Western Stock Show, Denver, Colo.

An AQHA champion, he was 22 grand championships and 13 reserves to his credit. He was consigned by Randy Parkinson, and sold to Paul Schultes, Wolf Point, Mont. for \$20,000.

SUMMARY
60 head \$5,240

Auctioneer: Dean H. Parker
Sale Manager: Dean H. Parker
Thane Lancaster and Assoc.

At \$17,500 a Earl Barnes entry, Call Me Cloudy, went

to TZ Ranch, Grand Junction, Colo. A 1973 sorrel mare sired by Cloud Master and out of a Pana Bar mare, she is an AQHA grand champion halter mare.

Redd Ranches, Paradox, Colo. bid \$13,000 to own Skipa Rio, a 1979 sorrel stallion sired by Skipa Star. This excellent stallion prospect was consigned by Richard and Glenda St. John. Annie Rill, a 1979 black mare entered by Steve Sellers, and sired by Mr. Impressive, sold for \$10,000 and went to Tex D. Prewitt, Twisp, Wash. Also at \$10,000, Genuine Jack, a 1978 sorrel stallion by the great Two Eyed Jack sold to Roger Evans, Sioux Center, Iowa.

W.F. Anderson and Bessie Sheik, Broomfield, Colo., bid \$9000 to own the Thorne Bury consignment, Babee Treo. A 1977 sorrel mare, she was sired by Te n' Te

and out of a Baby Rastus bred mare.

The average price paid for the working Quarter Horses this year is indicative of the popularity of this breed and of the demand for

top quality working stock. This is the only true sale of its kind, and the quality of the offering is very good. The sale was managed, and horses sold into 14 states.

POLLED OFFICERS—Bill Wolfe (right) of Walla Walla, Ore., and Bill Woolston of Sheridan, Wyo., have been elected chairman and vice chairman, respectively, of the board of directors of the American Polled Hereford Assn. (APHA). Their elections occurred during the 68th National Polled Hereford Convention-Show-Sale in Denver, Feb. Jan. 14-17.

Comments

The domestic cattle feeding industry appears to have been on a collision course with the rapid growth of grain exports for several years. The intersection of these expansion paths has been avoided since 1974 by five consecutive years of increasing U.S. corn production.

The large drop in feed grain yields in 1980 along with record high export sales could signal that the collision of these paths can no longer be avoided, the Western Livestock Round-up report for January suggests.

Anticipation of continued escalation in feed costs at a time when beef movement has been slow is certainly reason for concern. Commercial production of red meat provides an important part of the food supply. Use of grains for livestock feeding in recent years has been an important factor associated with increases in meat production and consumption in many of the developed nations. The U.S. leads the world in the production and use of grain for livestock feed.

Remember, however, the United States is the only nation in the world where cattle on feed for commercial slaughter is one of the major categories for use of feed grain.

Many market observers expect that cattle prices will not keep pace with rising grain costs for the rest of this country. This likely will result in less grain being used for livestock feeding in the years ahead.

Projections of feed grain use for the 1980-81 feeding year just released by USDA indicate that feed use this year would be about seven percent less than the record 136 million metric tons used last year.

If expansion of international trade in feed grains continues through the 1980s, it is expected that feed grain prices will be higher relative to cattle prices than at most times during the past 30 years. Thus, it seems that the production of beef in the U.S. cannot expand at the rate experienced for the past three decades.

As population increases, per capita beef consumption in the years ahead may be as much as 10-15 lbs. below the 80-90 lb. [retail weight] experienced over the past several years. Only producers, feeders and processors who adjust their enterprises to the economic reality of this change will survive.

GLEN RICHARDSON

Weather offsets bullishness:

Meaning of cattle on feed report cloudy

There were 11,105 million head of cattle and calves on feed on Jan. 1 in the 23 major producing states, five percent below a year ago and 12 percent under Jan. 1, 1979, the USDA said.

An average of 22 livestock analysts expected the report to show cattle on feed at 96.3% on the Jan. 1, 1980, figure, or slightly above the 95% reported by USDA, according to Commodity News Service (CNS).

USDA also reported a bigger drop in the October-December 1980 placements that private analysts had forecast. USDA said 7.34 million head were put on feed during the three-month period, 91% of the same quarter in 1979 and 85% of the fourth quarter of 1978. Analysts predicted

placements would be 94.5% of 1979.

USDA said fourth-quarter 1980 fed-cattle marketings totaled 5.68 million head, or 99% of the same period of 1979. Analysts had expected increased fourth-quarter marketings, with the average estimate at 100.7% of the 1979 total.

USDA said cattle feeders intend to market 6.29 million head in the first quarter of 1981. That total would be two percent higher than the first quarter of 1980, but seven percent less than the first quarter of 1979.

Any bullishness in the cattle-on-feed report will be overshadowed by excellent feeding weather — which continues to pull cattle on feed ahead of schedule — and heavy cow slaughter,

according to livestock analysts contacted by CNS. When the industry markets more cattle than they place, it is normally considered friendly to the cattle market, said Dick Hummel, Farmer Grain and Livestock analyst.

However, he said, near-term cash cattle prices will not be affected because of (Continued on page 12)

Health emergency declared:

Haitian swine fever alerts U.S. industry

The USDA has declared an animal health emergency exists since the presence of African swine fever (ASF) in Haiti represents a serious threat to the U.S. swine industry and consequently, to the national economy.

Taken to initiate measures for countering spread of the highly contagious disease to the U.S., its territories and possessions, the action was jointly agreed to by the outgoing and incoming administrations.

The emergency declaration specifies that the ".... emergency arising out of the existence of African swine fever in Haiti, a very close neighboring country ... constitutes a threat to the swine industry of the United States."

Puerto Rico is considered especially vulnerable to ASF, because it is located approximately 75 miles from the island of Hispaniola shared by Haiti and the Dominican Republic. In turn, active tourism and trade between Puerto Rico (Continued on page 12)

Indemnity cut for death of animals from illegal drugs

The USDA will no longer pay indemnities for destruction of diseased livestock or poultry when infection results from the knowing use of an illegal product or potential disease carrying agent.

Products and agents such as vaccines, semen, embryo transplants, and other potential disease carriers are illegal when imported or used in violation of federal-state quarantine laws.

According to C.G. Mason of USDA's Animal and Plant Health Inspection Service, USDA has cooperated with states to control and eradicate communicable livestock and poultry diseases since 1884. This includes paying indemnities to farmers and ranchers when infected or exposed animals and materials are destroyed as a means of eradicating a disease outbreak, he said.

"We will continue to pay such indemnities — but not to persons who knowingly use an illegal product or vector," Mason said.

Although vaccines are usually thought of in positive terms, Mason said, "under certain circumstances their use may cause infection or result in animals becoming disease carriers." Semen, for example, is a known vector for about 35 diseases including foot-and-mouth disease and hog cholera, he said.

LMA campaign lashes marketing laws

A nationwide campaign to reform federal and state livestock marketing laws has been announced by Livestock Marketing Association (LMA).

The campaign seeks to substitute the "stockyard" title of the federal Packers and Stockyard Act, with modern provisions for market, dealer and broker businesses. Proposed legislation would leave the packer and poultry provisions of the P&S Act intact.

At the state level, the campaign will work for the passage of uniform live-

TOUGH TOT—Among stock show goers at this year's National Western, few struck a more rugged pose than this youngster, who took time out from his busy day to hold still for a camera. Although many a fired exhibitor was glad to see this year's extended show wind down, enthusiasts such as he will, no doubt, be anxiously awaiting next year. (Staff photo by Martha Williams)

Lyng to become deputy ag sec'y

Richard Lyng, a long-time supporter of President Ronald Reagan and a former assistant secretary of agriculture, has been appointed deputy agriculture secretary, the second highest job in the department, the White House has announced, according to CNS.

Lyng was named head of Reagan's transition team at USDA after serving during the campaign as coordinator of the fund-raising effort in the agricultural states.

During Reagan's term as governor of California, he appointed Lyng director of the state's department of agriculture. Prior to that appointment, Lyng was president of the Ed Lyng Co. Inc., a family seed business in Modesto, Calif. (Continued on page 12)

National Western sale:

Crowd size proves rise in South Devon interest

By JERRY YORK

This was the second year that the North American South Devon Assn. held its national show and sale during the National Western Stock Show, Denver, Colo. Interest in this breed continues to mount as evidenced by the good sized crowd of people at both the show and sale. Association president, Jack W. Hanson, in his opening remarks in the sale catalog, stated that the past year was one of unprecedented growth for the association.

Topping the sale offering of South Devon cattle was an entry from Double J

Cattle Co., Iola, Kan., FSDR May 254L, a May 3, 1979 daughter of Rocker 11th, sold bred to Syringa Ted M0882 to Half Moon Farms, Norman, Okla., for \$3350. Second high-selling female was SLF Mabel, a March 20, 1980 daughter of Americana Sash 19th, and she sold to Half Moon for \$3100. She was consigned by Kuntz and Sons, Brooklyn, Iowa.

Topping the bull portion of the sale was the consignment from Heath Creek Farm, Northfield, Minn., HCF Northern Citation an April 19, 1980 son of MFL Banker 7K. This top young bull sold to Diamond in the Rough Cattle Co., Oologah, Okla., for \$5000 for 1/2 interest. Next high-selling

bull was PSDR Magic Man consigned by Double J Cattle Co. A Sept. 16, 1979 son of Zorra Cholwells Beaver he sold to Vern Haggen, East Grand Forks, N.D., for \$2700.

SUMMARY

8 1/2 bulls \$2,482
36 females 1,884

Auctioneer: Ken Webster

Other high-selling individuals included Zorra Miss Forest's Kiky, a Nov. 12, 1978 daughter of CS General Hyades 4th. She was consigned by Zorra Farms, Embro, Ontario, Canada, and sold bred to Zorra Cholwells Beaver to Half Moon for \$3050. At \$2900, PSDR Joyce 179L, an Aug. 12, 1979 daughter of Zorra Cholwells Beaver, sold to Carol Harthorn, Sully, Iowa.

Skunk River Miss Gwon 3rd, an April 26, 1980 daughter of HHSD Beaver 1st, entered by Diamond J Ranch, Excelsior, Minn., sold for \$2600 and went to Dan Gustafson, Northfield, Minn. Also at \$2600, Half Moon took DLF Lassie 921,

an Oct. 25, 1979 daughter of DLF Vanguard M07. Another female brought \$2600 was CS M. Baron 16th, an April 2, 1979 daughter of West Baron. Entered by Clark Ranch, Durham, Kan., and sold to Eugene Klueh, Herrington, Kan.

ADOPTED—New Mexico's annual crop of beef is a reminder that we always follow with Dobbie Molina, daughter of Ben and Helen Molina. She was sold to a four-day-old lamb. The lamb was smaller of a set of lambs and was rejected by its mother.

WINNING CARCASS—This grand champion steer carcass of the Fed Beef (Carcass) Contest at the National Western Stock Show in Denver came from a pen of Angus-Charolais crossbred steers shown by Larry Lind, Fort Collins, Colo. The top carcass weighed 764 lbs., had .35 inches of fat, and 16.52 square inch ribeye, 1.58 yield grade and choice quality grade.

'Iceman' tops powerful sale of Charolais cattle

By JERRY YORK

A truly powerful offering of hand-selected Charolais cattle combined with a huge crowd in the Beef Palace Auction Arena during the National Western Stock Show boosted the 2nd National Charolais Sale into the upper echelon of sale averages posted during this livestock show. The cattle represented some of the breed's best herds, and surely those consignors and buyers in attendance can be proud of this display of breed strength.

SUMMARY

1.69 bulls \$78,935
24.75 females 6,494

Auctioneer: Stanley Stout
Sale Manager: Jim Koch's
Olympic Cattle Services

Topping the entire sale offering was ABC Iceman 811, the 1981 National Western Charolais Champion Bull. A March 17, 1978 son of Johnny Cake Extremator, he sold for a whopping \$115,000 for a 1/8 interest. He was shown and consigned by Wesson Charolais, Inc., Windy Hills Charolais Ranch, J Bar J Ranch and ABC Ranch, Koshkonong, Mo., and when the dust settled following spirited bidding, Diane Erie, McDonald's Restaurant/Woolie Farm, LaGrange, Ky., owned a piece of this great breeding bull.

Bauman Ranch, Carpenter, Wyo., one of the breed's pioneer establishments, entered JB Cheri 172, the reserve champion female of the show, and she created a strong flurry of bidding activity. Windy Hill Farm, Commerce, Ga., and Derby Farm, Crestwood, Ky., won the bidding battle and now own a 1/2 interest in this top female for \$17,500. JB Cheri 172 is an Oct. 11, 1978 daughter of Double Hook Sculptor.

At \$15,000 Watcha Charolais, Forest, Ont., Canada, took possession of a 1/4 breeding interest in the Royal Charolais Co., Youngwood, Pa., consignment, ECC Royal Tempress 2927. She was the champion female in the national show and is an April 21, 1979 daughter of HCR Expectation 269, Gentry's Double Hook Ranch and Miller Farm, Whitman, Neb., entered Double

Hooks MS Courage 8306, and she sold safe in calf to 12 Oaks Charolais Ranch, Enid, Okla., for \$11,000. A Nov. 5, 1978 daughter of Courage, she was a popular entry.

Double H Polled Showgirl, a Feb. 11, 1980 daughter of SHF Sir Royal Sam 80, was entered by Double H Charolais, Paynesville, Minn., and she sold to Double AA Farms, New London, Minn., for \$8000 for 1/16 interest. At \$7750, JC Enterprises, Ringo, Pa., became owner of a Barton Charolais Ranch, Mant, Utah consignment, BCR Miss Barton 937. A May 13, 1979 daughter of LCR Impressive G560, she sold safe in calf to Riverwood Instigator.

Bauman Ranch also entered BR Maureen 105, a May 9, 1979 daughter of Double Hooks Sculptor bred to BR Marco Polo Polled, and she returned \$6500 and went to Jim Cruikshank, Olds, Alberta, Canada, and Robert Palmer, Bladworth, Sask., Canada.

This was undoubtedly the strongest Charolais sale to be held in Denver during the National Western, and the credit for its success should go to the consignors for bringing the top quality animals, the sale manager for an excellent job of screening the entries.

USDA prints book on energy saving

"Cutting Energy Costs," the 1980 Yearbook of Agriculture, has been issued by the USDA.

The 408-page book is designed to help bring down energy costs of farmers, foresters, homemakers, communities and the food industry.

"Every American should find something worthwhile in this volume," Secretary of Agriculture Bob Bergland said in the book's foreword. "All of us are well-aware of how the increases in energy costs have cut into our incomes. Farmers especially have been struggling to hold down their production energy requirements so that Americans can continue to get their food at reasonable cost," he said. "Cutting Energy Costs" may be purchased by sending a check or money order for \$9.50 to Superintendent of Documents, Washington, D.C. 20402.

Sale of feeder calves boasts larger numbers

By JERRY YORK

The National Western Stock Show's Feeder Calf Sale was up slightly in numbers this year, selling

445 head, 10 head over last year's 445. The average selling price was down slightly at \$914, compared to last year's \$923. As is always the case, the Livestock Auction Arena was filled to capacity, and the sale moved rapidly. The grand champion pen sold first and averaged \$3700 for the six head. Sam J. Barr, Kearney, Mo., consigned and showed the champion load of 1/2 blood Chianina-Angus cross calves, and they sold in order to Howard King, Hill, Mich., \$5600, A.J. Smalley, Jr., Longview, Texas, \$2900, Ernest Davis, Guthrie, Okla., \$2800, William Couch,

Indianapolis, Ind., \$7000, Jim London, Freedom, Okla., \$2200 and Clay Holcomb, Stanton, Texas, \$1800.

The reserve grand champion pen was exhibited and sold by Jim Ellsworth, Leadore, Idaho. This pen of 3/8 Chianina and 5/8 Angus calves sold for an average of \$1242 and sold in order to John Orcutt, Jr., Larkspur, Colo., \$1050, A.J. Smalley, Jr., \$1400, Lisa Kadie, Arcata, Calif., \$1000, Wes Barnett, Fredricksburg, Texas, \$1600, B and D Cattle Co., Hill, N.M., \$1700 and \$800.

SUMMARY

455 steers \$ 914
8 heifers 1,520
461 head 922

The champion Charolais pen was consigned by Mose and Merla Hebert, Burwell, Neb., and the top was

\$2600, going to Debby Schill, Houston, Texas. The champion Hereford pen was an entry from Larry and Molly Doscheemacker, Lewiston, Mont., and this lead topped at \$1700, going to T.R. Newman, Stanton, Texas. The champion Limousin pen was from Allard Cattle Co., Lemoyne, Neb., and the top went to Allen L. Burkhardt, Moorhead, Okla., and Julie Hookum, LaSalle, Colo., for \$1000 each. The champion Angus pen was entered by Claus Angus Ranch, Chamberlain, S.D., and the top went to Walle Thornburg, Utica, Kan., for \$1125. Ka'Be Ranch, Roggen, Colo., entered the champion Shorthorn pen and had a top of \$1200 going to Heston McBride, Bluffton, Texas. The reserve champion Charolais pen was from Larry Ling, Ft. Collins, Colo., the reserve Herefords from Earl Henderson and Sons, Alliance,

Neb., the Reserve Limousins from Donnie McLain, Franktown, Colo., the reserve Angus from Uhlir Ranch, Hemingford, Neb., and the Reserve champion Shorthorns were from Alexander Cross, Inc., Douglas, Wyo.

Wind erosion affects Great Plains acreage

Wind erosion damaged more than 1.1 million acres (440,000 hectares) of land in the Great Plains during the last two months of 1980, a USDA official said.

Norman A. Berg, chief of USDA's Soil Conservation Service said reports from the 10-state area show wind damage on 1,143,245 acres (467,298 hectares), down slightly from 1,390,901 acres (566,380 hectares) damaged during the same period in 1979.

Montana, with 327,082 wind-damaged acres (130,833 hectares), accounted for 29% of the total. The northern plains states were hardest hit with 89% of the damaged acreage.

The U.S. loses some four billion tons of topsoil each year from its forests and farms.

Oklahoma's 'Sooner' wins honor of Gelbvieh grand champion bull

By DICK CROW

The American Gelbvieh Association held its national show Jan. 22 at the National Western Stock Show, Denver, Colo. The entries consisted of both purebred and percentage cattle which were judged by Miles McKee of Manhattan, Kan.

Grand champion purebred bull honors went to the yearling entry of Craig Cooper, Ada, Okla., appropriately named Sooner. Reserve was on the spring calf, LNR 829M, shown by Nelson Gelbvieh Ranch, Ellensburg, Wash.

The female purebred entries of Gelbvieh this year were especially strong. Heading these as grand champion was the summer yearling, JON 520L, an entry of John C. Cooper, Cooper Bros. & Assoc., Mountain View, Mo. Reserve was on the Cooper Bros. & Assoc.'s junior calf, CBA 13M.

GELBIEH
Judge: Miles McKee,

RURAL APPRAISAL EDUCATION OPPORTUNITIES

THE AMERICAN SOCIETY OF FARM MANAGERS AND RURAL APPRAISERS

1981
EDUCATION PROGRAMS

BASIC PRINCIPLES OF RURAL APPRAISING

A comprehensive course in the basic of appraising and its application to rural agricultural properties. A visit will be made to a subject farm.

Albany, Ga., February 1-4
Fresno, Calif., June 14-19
Ames, Iowa, July 28-31

ADVANCED RURAL APPRAISAL

Case studies and a farm visit, plus the advanced theories and applications to rural properties will enable the student to prepare a written narrative report.

Yakima, Wash., June 21-25
Columbia, S.C., July 6-10
W. Lafayette, Ind., August 16-21

ADVANCED RANCH APPRAISAL

Advanced theories and application of appraisal processes to ranch properties will be discussed.

Fort Worth, Texas, May 24-28

SPECIALIZED TOPICS "MINERALS APPRAISAL"

Seminar

Experts on appraisal of mineral products will address valuation and effects on real estate values.

Billings, Mont., Sept. 10-11

For further information contact the American Society of Farm Managers and Rural Appraisers.

Charolais compete for honors during Denver national show

By DICK CROW

Re-newed interest and enthusiasm nationwide in Charolais cattle was reflected this year in Denver in the 12th National Charolais Show at the National Western Stock Show, Jan. 21-22.

More than 200 head of individual breeding stock competed for the honors, and perhaps there have been shows with larger numbers in the past, but it is doubtful any competition was every as better than the cattle on display at this year's show.

ABC Iceman 811 M, the senior champion bull, was also awarded grand championship by the trio of judges. This massive son of Johnny Cake Extremator was shown by Wesson Charolais, Inc., Windy Hills Charolais Ranch, J Bar J Ranch and ABC Ranch, Koshkonong, Mo. Reserve grand champion bull was Hickory Lane Professor (a twin), winner of the junior championship and shown by Roger E. Hunsley & Family, W. Lafayette, Ind., and by one of the show's big winners, Royal Charolais Co., Greensburg, Pa.

As usual, the female classes ran strong and deep. Royal Charolais Co. was awarded grand champion on the spring yearling, RCC Royal Temptress 2927. Reserve went to the pioneer western firm, Bauman Ranch, Inc., Carpenter, Wyo., on JB Cheri 172, winner of the cow and calf competition.

CHAROLAIS

Judges: George Labar, Harrington, Texas; Joe Lewis, Larned, Kan.; Don Pohylko, Eskine, Ala., Can.

BULLS. Calved May 7, 1980 to July 15, 1980—12 shown: 1. Cardinal Farms, Hubbard, Iowa, on Cardinals Secretariat 2. BCR & Sam Ray & Leroy Webb, Abbeville, S.C., on BCR Polled Prestige 97 3. Gentry Double Hook Ranch, Whitman, Neb., on BR High Pockets 352

Holstead and Royal

Angus breed unholds tradition; puts on strong, exciting show

By JOHN E. COOTE
The south side of the stadium was filled to capacity with Angus enthusiasts for the 1981 National Western Angus show. Carrying on the tradition of having one of the strongest, most consistent breed shows during these ten days every January, the Angus exhibitors gave the crowd what they came to see—a show that crones excitement and stimulates interest.

From intermediate champion in 1980, through a year of many victories on the road, Sir Williams Warrant return to Denver to become the 1981 senior and grand champion Angus bull. This extremely popular champion is a May 7, 1978 son of Wetonka 2446 and was shown by Lovana Farms and Quirk Land and Cattle Co., Clarksville, Ga.

Reserve grand honors in the 86 head show went to the junior calf champion, the much talked about High Voltage, a March 20, 1980 son of Mr. Angus, the 1979 grand and the 1980 reserve grand at Denver. High Voltage is owned and shown by Huckfeldt-Krebs Angus, Gordon, Neb., and Kilgore Angus Farm, Rising City, Neb.

Judge Jerry Fitzgerald, Harrison, Neb., in final remarks on the female show, stated, "I have reached for females that are feminine." He then named Wendell's First Lady, the 1981 grand champion Angus female. This heifer topped 144 entries, first becoming junior champion and then grand. First Lady is a March 27, 1979 daughter of Nelson Headstart, owned by Janna Nelson, Salmon, Idaho.

The entire Angus show exhibited a tremendous amount of depth, and the breed as a whole can be proud of this exhibition.

ANGUS
Judge: Jerry Fitzgerald, Harrison, Neb.

BULLS. Calved April 28-May 10, 1980—5 shown. 1, Gail & Mike Gordale and the Baldridge Place, North Platte, Neb., on Sir Wm's Appaloosa 7236. 2, Kadence Ranch, El. Ignatius, Mont. on Kadence Marshall 078. 3, Earl Etzel & Sons, Norwalk, Iowa, on Ascent Northern Marshall 20.

Santa Gertrudis please crowd

By DICK CROW
The big, ruddy red cattle put on a good display for this year's Santa Gertrudis show at the National Western Stock Show, Denver, Jan. 23. Each year more and more spectators are on the seats to watch these Santa Gertrudis placings.

Cherokee Ranch, Sedalia, was the consistent winner again at this year's show. Owner Tweet Kimball has sincerely and enthusiastically supported the growth of the use of quality Santa Gertrudis throughout the Mountain/Plains region. Her "Governors" looked great in the show ring, including the grand champion bull, Cherokee Little Governor by Cherokee the Governor.

Other first place and champion winners included: Crooked Nail Ranch, Gerald, Mo.; Haste Ranch Inc., Meeteetse, Wyo.; Continental Ranches, Buckeye, Ariz.

SANTA GERTRUDIS
Judge: Dale Elrod, Riviera, Texas

BULLS. Calved between Jan. 1-May 31, 1980—9 shown. 1, Crooked Nail Ranch, Gerald, Mo., on 0/30. 2, Haste Ranch, Inc., Meeteetse, Wyo., on Entry No. 98. 3, Brent Pollet, So. Coffeyville, Okla., on Luke.

Calved between Sept. 1-Dec. 31, 1979—1 shown. 1, Continental Ranch, Buckeye, Ariz., on Freddie 0-13.

Calved between May 1-Aug. 31, 1979—3 shown. 1, Crooked Nail Ranch on Enhancer 11 Y9. 2, Cherokee Ranch, Sedalia, Colo., on Cherokee Ace. 3, Cherokee Ranch on Cherokee Gov.

Calved between Jan. 1-April 30, 1979—2 shown. 1, Cherokee Ranch on Cherokee Gov. Colorado. 2, Cherokee Ranch on Cherokee Tamerlane 11.

Calved between Jan. 1-June 30, 1979—2 shown. 1, Cherokee Ranch on Cherokee Gov. Colorado. 2, Cherokee Ranch on Cherokee Tamerlane 11.

CLEANING UP—Cherokee Ranch, Sedalia, Colo., made a clean sweep of the Santa Gertrudis show during the National Western Stock Show, Denver, Colo., taking the champion and reserve bull, champion female, and all but two of the group classes. Pictured are the champion and reserve champion bulls, both sired by Cherokee the Governor 9440. (Staff photo by Jerry York)

EDITOR'S NOTE: Tax Corner is a new column which will appear in the WLD approximately the first week of every month. This special feature will offer tax advice especially useful to our farm and ranch readers. The authors, Daniel Japha and Ernest Panasci, attorneys at law with the Denver firm of Rothgerber, Appel & Powers, urge readers to discuss the tax matters detailed below with their personal tax advisor.

By DANIEL JAPHA and ERNEST PANASCI
Everyone is painfully aware of the old saying that the only certainties in life are death and taxes. The structure of the federal estate tax causes those two painful and certain events to occur simultaneously. Unfortunately, it is not until a family member's death that the bite of the federal estate tax becomes a shocking reality.

Simmental sale another 'Trendsetter'

By JERRY YORK
The National Simmental Trendsetter Sale 1981 held in conjunction with the National Western Stock Show and the American Simmental Assn. National Convention, Denver, Colo., drew a vast crowd of people. The breed exhibited its strength by the quality animals in the sale offering and the enthusiastic manner in which the buying crowd accepted the bulls and females. Bidding was steady and strong from start to finish, with cattle selling into a wide area.

Two bulls were sold for a 1/10 interest in each, and one sold for a 2/3 interest, making their valuation substantially higher than the sale topper. However, the bull returning the most dollars to the owner was, Circle B Mr. 23L. This outstanding purebred bull was consigned by Circle B Cattle Co., Geneseo, Ill., and he sold for \$15,200 to HB Simmental, Seymour, Iowa, and Larry Drink, Centerville, Iowa. A July 2, 1979 son of Canadian Salvator 18287, he was a popular bull with the buying crowd.

Bringing \$10,000 for a 1/10 interest and making the bull's valuation \$100,000, was SF Polled Proficiency, a May 5, 1980

son of Lacombe Achilles. This fullblood bull was entered by Shaffmaster Farms, Keytesville, Mo., and sold to Jim Leonard, Leander, Texas.

SUMMARY
13.87 bulls \$5,631
8 bred females 4,038
28 open females 4,621

Auctioneers: Merrill Anderson and Joe Milham
Sale Manager: Bevins Sims International

BHF Black Hawk 72M, an April 7, 1980 purebred son of Black Diamond was consigned by E.H. Blystone, Osborn, Mo., and he sold for \$6500 to George Vogas, Holyoke, Colo. Also at \$6500 was Circle B Mr. 1905M, an Jan. 10, 1980 fullblood son of Signal. Entered by Jim Burns and Sons, Almond, Wis., he sold to Jamoca Simmental, Crawfordville, Iowa.

Circle Diamond Ranch, Robertson, Wyo., sold a 1/10 interest in Denver's Best, a Feb. 17, 1980 fullblood son of CET Alberta 39J. This top young prospect went to Marvin Costello, Stevensville, Mont., for \$5000.

Topping the females was the consignment from Southwest Simmentals, Gerald Walters, and S And B Cattle Co., Tempe, Ariz. Miss Polled Trendsetter, an April 2, 1980 open fullblood

estate taxes, a farmer's or rancher's family is often forced to sell part or all of the property to raise enough cash for the payment of these taxes. However, professional assistance can help to alleviate the burden of the estate tax and increase the portion of an estate that passes to your family.

One method to avoid a forced sale of a farm or ranch to pay estate taxes is through the deferral of a portion of the estate taxes due at death. An estate is permitted to elect to pay a portion of the estate tax in two to ten annual installments. Interest must be paid on the portion of the taxes that are not paid immediately.

The deferral of estate taxes, which is often overlooked by estate planners, can only be elected if certain conditions are met. Two of these conditions are: 1) The value of your ranch or farm must comprise a certain percentage of your estate; and 2) The farm or ranch must be operated as a trade

or business.

The benefits to be derived from the deferral of taxes can be sizeable. On the death of a farmer or rancher, the person responsible for handling the estate should examine the availability of the selection. The rules for qualifying for the deferral of estate taxes are complex. Accordingly, in order to take advantage of this tax deferral technique, we recommend that the estate's representative contact his or her tax consultant.

Iowa Gelbvieh female sparks surge in bidding

By JERRY YORK
The Gelbvieh Grand National IX Show and Sale held during the National Western Stock Show, Denver, Colo., drew a large crowd of buyers and spectators, as well as a high quality offering of purebred and percentage cattle. The offering was not a large one, however, support for the consignments was as strong as any sale held during the week. Cattle were entered by 13 breeding establishments, and the female offering topped the entry by Road Runner Farms, Clinton, Iowa. RRF Miss Lena, a

Gelbvieh female, calved Feb. 10, 1979 and sired by Bayou 2F, created a strong surge of bidding between several interested breeders before selling for \$8000. She went to K Bar M Ranch, Seminole, Okla.

The top-selling bull was a consignment from Conper Ranch, Ada, Okla., and sold to Raymond and Mary Marcus, LaMotte, Iowa, for \$11,100. A 15/16 blood bull born May 3, 1979, he was a son of Super Star and was the result of embryo transplant. Second high-selling bull was LNR Citation, a March 16, 1979 son of Belgrade entered by Nelson Gelbvieh Ranch, Ellensburg, Wash., that sold to Valhalla Ranch,

Bennett, Colo., for \$5500. Cooper Ranch also entered Oklahoma Cowboy, an April 28, 1979 son of Super Star, and he returned \$3900 going to Steve Larson, Logan, Neb.

SUMMARY
41 bulls \$5,333
161 females 2,055

Auctioneer: Stanley Stout

Other high-selling females included the entry from Sherri Lynn Buss, Hunter, Okla. MRB 10L, an April 4, 1979 purebred daughter of Dietrich IG, she sold bred to Rough Rider, and brought \$3100 from Valhalla Ranch. At \$2800, Jack Griffin took a Valhalla

consignment, MAC Miss Valhalla 524L. A Feb. 4, 1979 daughter of LNR Minnesota Magnum 3093, she sold bred to Sherman.

Beaumont Gelbvieh Pierre, S.D., consigned Miss Bea 920L, a June 20, 1979 daughter of Monarch bred to Cowboy, and she sold to Grand River Gelbvieh, Lemmon, S.D., for \$2600. At \$2600, Rayl and Sons, Adair, Iowa, took a Green Valley Gelbvieh, Ree Heights, S.D., consignment, GVG Miss V13M, a March 15, 1980 daughter of Rocky.

It is beginning to look like we need a law so folks could sue a successful candidate for breach of promise.

Private sector aid keeps 4-H going

This year about 275 young people will receive \$250,000 in national 4-H scholarships. Thousands more will attend citizenship, leadership and international training programs, says Bob Gilliland, associate director of 4-H for New Mexico State University. All of this and more is made possible by the private sector's support of 4-H on the national and local levels. In communities across the land, 4-H thrives because this unique partnership of the public and private sectors brings youth work of the cooperative extension service not only financial support, but active involvement in educational programs, too. Many business men and women volunteer their time to share expertise with young people.

Thomas Chaps leaves best-selling "Legacy"

By JOHN E. COOTE

Roosting the 1981 National Western Angus bull sale average was the top-seller—an added lot—MSU Legacy, a Feb. 4, 1980 son of Thomas a s Chaps. Legacy was the winner of this class during the bull sale and was consigned by Michigan State University, East Lansing, Mich. Two-thirds interest and full possession sold to Bluegrass Angus, Danville, Ky. Gene C. Triplett, Danville, and Wilbur Fruhling, Penefield, Ill., for \$100,000.

The second high "and

Obituaries

CYRIL WINKLER

Cyril Winkler, prominent livestock order buyer and livestock consultant, from Alliance, Neb., died just before noon Jan. 23 at Denver General Hospital. Winkler was in Denver attending the National Western Stock Show when he was involved in a car accident.

Born July 30, 1903, in Lexington, Neb., Winkler graduated from Lexington High and attended the University of Nebraska at Lincoln. While in college, he judged poultry, dairy products and livestock and was a showmanship contest winner at the Baby International at Lincoln. He was a member of Delta Tau Delta social fraternity and the National Rodeo Association at the university.

Winkler showed his first steer in January, 1922, in open competition at the National Western Stock Show in Denver. He emerged with third place in a class of 17 head. He had attended every stock show in Denver since that time.
On Jan. 21 at the Angus show at the National Western, Winkler

was honored with a silent prayer. The Winkler family moved to Alliance in 1932, where Winkler was associated with the Alliance Auction Livestock Co. He also served as a loan inspector for the Western National Bank in South Omaha, Neb., and was western representative of the Chicago Union Stockyards and Transit Co.

He and his late wife, Mary, had operated a chicken hatchery at Lexington for several years, and most recently Winkler had been in business for himself in the livestock field.

He was a member of the Holy Rosary Catholic Church and the Knights of Columbus.

Survivors include: daughters, Mrs. Duane (Katie) Worley, of Alliance, Mrs. Gretchen Martin of Arlington, Texas; Mrs. Bayard (Mary Lynn) Seaden, Jr., of Albuquerque, N.M.; a sister, Mrs. Kathryn (Gladys) Lexington, Neb.; grandchildren and one great-grandchild. His wife died in September, 1979.

GHOST TOWNS

Once a birthplace for many legends these towns are now sadly borderline between "life & death". Relive some of the "lusty vigor" of their heyday when you take an armchair trip of Ghost Towns in California, Washington, Alaska, Utah and New Mexico. Texas. For the curious ghost-town hunter the "Guide to Western Ghost Towns" lists over 400 towns, complete with maps. Truly, an adventure to the West's historic past. \$5.95 each. (\$4.95 + \$1.00 postage).

"Signal Lass" takes high honors in powerful Simmental showing

By JOHN COOTE

Simmental breeders from throughout North America gathered at the National Western Stock Show, Denver, Colo., Jan. 21 for what could have been one of the breed's most powerful shows of all time.

Roger Allen, Ill., took junior and grand championship honors with his yearling, 6/R Bo Signal Lass. Shawest Farms, Edmoulin, Alta., Can., won reserve reserve grand and reserve junior champion on Shawest President 65L.

Leading the female placings was Christeen Connor's entry from Albany, Mo., 14th, which won over a class of 20, the largest female competition of the show. Reserve grand champion honors went to an entry from Canada, 15/1 Ms Bon Valley 1M, shown by Highland Land & Cattle Co., High River, Alta.

SIMMENTAL

Judge: J.W. Brune, Ottawa, Kan.

South Devon breeders gather for national show in Denver

By DICK CROW

South Devon breeders from across the country held their national show at Denver's National Western Stock Show, Jan. 21.

There was a large crowd at ringside to watch a breed that is still relatively unknown in this part of the world.

Interestingly, for many years, South Devon have enjoyed wide acceptance by South American cattlemen, especially so in the pampas area of southern Brazil.

Judge James C. Linthicum of Welch, Okla., made

the entry of Double J Cattle Co., Inla, Kan., Syringa Ted, the grand champion purebred bull. Reserve went to Heath Creek Farm, Northfield, Minn., on Northern Citation.

SOUTH DEVON

Judge: James C. Linthicum, Welch, Okla.

PUREBRED BULLS. Calved Jan. 1, 1980 and after—3 shown: 1. Horseshoe Ranch, Moorhead, Minn., on Horseshoe River 103M, 2. Dale and Verna Nielsen, Independence, Iowa, on DV Joe 3, 3. Dale and Verna Nielsen, on DV Tornado.

Calved Jan. 1-Oct. 1, 1979—1

shown: 1. Horseshoe Ranch on JJ Rocker 69L.

Calved Jan. 1-Dec. 31, 1978—1 shown: 1. Horseshoe Ranch on Horseshoe Dandy 15K. Grand champion percentage bull: Horseshoe Ranch on Horseshoe Dandy 15K. Reserve: Horseshoe Ranch on JJ Rocker 69L.

PUREBRED FEMALES. Calved April 1, 1980 and after—3 shown: 1. Double J Cattle Co., Inla, Kan., on PSDR Magic Man, 2. Half-Moon Farms, Norman, Okla., on DLF Viking 3, 3. Zorra Farms, Embro, Ont., Can., on Zorra Reavers Limay.

Bidding progress snappy at Murray Grey's auction

By JERRY YORK

The grand champion Murray Grey bull of the National Western Stock Show, Denver, Colo., was MSA Apache's Ron, and when he was led into the sale ring to be sold, the

bidding was rapid. The May 12, 1980 son of Michaelong Captain Apache K188 was entered by C.F. Strung, Murrayville, Ill., and he sold to Richard Williams, M.L. Carroll, Ill., for \$6000. Topping the entire sale was the reserve champion bull, TMR Premier, entered by Leo and Jeanne Bent, Neosho, Mo.

A March 3, 1979 son of Newhaven Park Egor, he sold for \$6000 to Mt. Aires Farm, Mt. Jackson, Va.

Another high-selling bull was the entry from Carlyn Ranch, Carlyn's Pelion Advent, a March 2, 1979 son of Aladeen Pelion 10F. He sold to Hadley for \$4200. Red Butte Christin, a March 3, 1979 daughter of Red Butte Pelion, entered by Ballensky sold for \$2700 to Marshall Perry, Sand Spring, Okla., and at \$2600, a bull entered by Kathy Christ, Elgin, Ill., sold to Walter Leach, Paxico, Kan. The bull, Fairmount's Ace, was a July 10, 1979 son of Chinook Minute Man.

This year's Murray Grey sale saw an offering very representative of the breed turn in some satisfying results for the consignors and buyers.

Cattle on feed report: Weather offsets bullishness of low numbers

(Continued from page 1) the exceptional feeding weather and large non-feed slaughter which has occurred during the fourth quarter of 1980.

Cattle are reported to be two to four weeks ahead of schedule in weight gains

throughout most of the 23 states, the analysts said. The report will not be enough to turn the market around from its sideways price pattern of the last six weeks, according to Tom Tappens, professional cattle consultant analyst. Until

cow slaughter begins to decline and feed cattle numbers begin to decrease, improvement in the market is not expected, he said, although the report's figures could support present price levels.

Cow slaughter has been

running above year-ago levels throughout the fall because of the drought, high feed and operating costs, high interest rates, and poor profit potential, Tappens said.

Joe Kropf, an analyst with Livestock Business Advisory Services Inc., said the weight breakdowns will be the most important aspect in the report in relation to near-term cash cattle prices because he expects a large number of cattle in the 1100 lb. and up category.

Kropf said this will indicate there are still large numbers of yield-grade 4 and 5 cattle that need to be marketed, which he considers bearish for near-term cash cattle prices and could pressure cash cattle prices \$1.00 per cwt. lower.

The overfat cattle have been a depressing factor since late October, he said.

However, Hummel expects the weight breakdowns to indicate cattle are more evenly distributed throughout the weight categories and will not show a

burdensome number of cattle in the 1100 lb. and up category.

For second-quarter cash cattle prices, the report should be considered friendly to bullish by the analysts because the expected lower placement and cattle on feed figures should indicate that feed cattle supplies will tighten, probably sometime in April.

Hummel expects the weight breakdowns to indi-

cate that a large supply of cattle will be marketed the third quarter, which will be negative for prices during that period.

Analysts are expecting total cattle on feed to range from 93.5 to 99.0% of a year ago, according to a Cattle Survey. The survey also showed predicted marketings to range from 90 to 99% of a year ago and placements to range from 100 to 108% of a year ago.

Haitian swine fever alerts U.S.

(Continued from page 1) and the U.S. would make it difficult to prevent spread to the mainland. There is no effective vaccine or treatment for ASF.

The declaration authorizes "... a program in cooperation with the government of Haiti, and with other governments and international organizations or associations, in carrying out operations or measures to eradicate, suppress or control African swine fever in Haiti or to prevent or retard African swine fever or vectors thereof from being introduced to and disseminated into the United States."

Lying to become deputy ag sec'y

(Continued from page 1) Lying became president of the American Meat Institute in 1973, after leaving USDA. He remained in that post throughout most of 1979.

Lying was a top contender for the job of agriculture secretary under Reagan before it went to John Block, former director of the Illinois Department of Agriculture. But Lying is expected to take a lead role in shaping agricultural policies under Block.

The appointment must be approved by the U.S. Senate.

The Haitian government has requested assistance in combating the disease. Mexico and Canada have expressed interest in cooperating in the eradication effort.

ASF first invaded the western hemisphere in 1917. That outbreak, in Cuba, resulted in destruction of a half-million hogs. In 1978, the disease was confirmed in the Dominican Republic, and Brazil, with Haiti becoming infected in 1979. Cuba experienced a second outbreak early in 1980, which was rapidly eliminated.

The Dominican Republic elected to slaughter its entire swine population in order to eliminate ASF. With a loan provided by the U.S. Agency for International Development and technical assistance from USDA's Animal and Plant Health Inspection Service, the slaughter program was completed in September 1980, and, after a period of surveillance, the country is

now restocking with new pigs.

African swine fever is a highly contagious virus disease affecting only swine. Its symptoms in the acute form include high fever, red blotches on the skin, internal bleeding, collapse of the animal and nearly 100 percent death losses in the herd. The disease spreads rapidly like virulent forms of hog cholera. A milder, chronic form of ASF, with reduced death losses, has been experienced in some countries.

The disease is spread by infected live pigs and pork products, contaminated garbage, feed or water, clothing, footwear, and improper disposal of infected carcasses. Eradication of ASF is possible only by quarantining all farms in the vicinity of an outbreak, destroying all infected and exposed swine, surveying swine herds and cleaning and disinfecting all infected and exposed farms.

BRAHMAN BULLS

to sell at auction

Wednesday, February 18

Sale Time 12:30 p.m.

Nelson Livestock Auction

Tucson, Arizona

100 HEAD STRONG

Strong in Numbers:

Without a doubt, this sale will offer the largest selection of good Brahman bulls to sell west of Texas!

Strong in Quality:

The bulls from both consignors have years of selective breeding behind them and years of profitable production ahead.

Strong in Performance:

Some 35 of these bulls are coming 3's or older (a few have been used on registered cows) and are ready for immediate heavy service. Another 50 head are coming 2-year-olds that will sure breed this spring and summer. There will also be about 15 commercial yearling bulls and as a special feature 10 to 15 registered yearling heifers.

Approximately 20% of the sale offering will consist of Red Brahman—the balance are grey Brahman offering the Leading Bloodlines of the Breed. Come prepared to buy the best—you'll not be disappointed!

Special Cow Sale Clovis Livestock Market Clovis, New Mexico

Saturday, February 7

1 p.m. MST

Expecting

2000 COWS • 100 BULLS

Advance consignments include:

- 257 BWF cows—50 calves on the ground—good age cows
- 180 Crossbred cows—2-year-old to solid mouth—30 calves on the ground
- 80 Hereford cows—15 calves on the ground—running age
- 226 Charolais cross and Angus cows—mixed ages up to 7-years-old—64 calves on the ground
- 112 BWF springer cows—mixed ages
- 141 Angus springer cows—mixed ages
- 27 Brangus springer cows—good age
- 104 Mixed aged Hereford springer cows—few calves on the ground
- 110 Mixed cows—Hereford, Red Angus, and Red Angus cross—mixed ages
- 157 Hereford and BWF 3 to 6 year old springer cows—several calves on the ground
- 148 Mixed aged and mixed breeds springer cows

BRED HEIFERS

- 85 Hereford Charolais cross and BWF—nice, big, 800 lbs.—bred to black bulls
- 75 Hereford and BWF—bred to Brangus bulls—begin calving the last of February
- 75 Hereford—right off of grass—right condition to calve in—calfhood vaccinated—bred to Brangus bulls—start calving Feb. 15
- 20 Charolais cross—just beginning to calve—weigh 950 lbs.—8 calves on the ground
- 28 Really nice Brangus—bred to Brangus bulls—begin calving Feb. 15—calfhood vaccinated—weighing 850 lbs.
- 12 Red Brangus and big eared BWF—begin calving Feb. 15—calfhood vaccinated—weigh 850 lbs.
- 25 Hereford and BWF heifers—some calves on the ground—bred to Hereford bulls
- 25 Hereford and BWF heifers—bred to Angus bulls

BULLS

- 20 Brangus bulls—yearling past two 2-year-old bulls
- 10 Yearling and coming 2-year-old Brangus bulls
- 5 Three and four year old Santa Gertrudis bulls
- 8 Three year old Hereford bulls

All cattle Brucellosis Tested or Calfhood Vaccinated
Most Cows Pregnancy Tested

THE CUT-AND-DRIED DIFFERENCE

Our ground-hugging platforms get more hay out of the field

Right profit margins are putting the squeeze on today's farm managers. That's why you need the efficient operation of a John Deere 2320 or 2420 Windrower.

Get a little more hay. Bumps and dips may be stealing part of your hard-earned hay. But our special flotation system is sensitive to the contours of your land. This helps our platforms reach down into dips and flex up over rises. In short, they hug the ground like a rug to get valuable feed that some windrowers leave behind.

Get a little more life out of your sickle bar. Our sensitive platform float system works with easy guard angle adjustment to extend sickle and guard life. If your fields are smooth as a pool table, lower the guard angle for a close crew cut. Adjustment is as simple as turning two turnbuckles.

Problems on rough fields are a problem. Just tilt the angle back to let the platform ride up and over obstructions.

For even more durability, our knife drive runs in oil. Get a little more nutrition from your crop. Fast-working hydrostatic drive and a 62-hp engine give you more leeway in planned hay harvest (65-hp diesel available on the 2420). So chances are better you'll get more hay and a nutritional peak.

Get more efficient. Visit your John Deere dealer today and see how all these little efficiencies can add up to a big difference on your farm.

**THE HAY
SPECIALIST**

Market Roundup: Interesting market impact developing

AN INTERESTING MARKET impact developed as a result of the USDA's 23 state cattle on feed report. The general consensus was that the report confirmed ideas about ample cattle supplies and a continued heavyweight backing problem through the first quarter of the year, followed by tighter supplies and bullish price moves, according to a CNS report.

Some analysts were surprised that the report's lower-than-expected feedlot placements figure at 91% of a year earlier did not produce a bullish response in the deferreds.

Even following the week's price declines, June futures closed at \$70.05 per cwt., at least four to five dollars over the current choice prices.

The cattle on feed report had little short-term impact on cash cattle prices, however. Choice steer carcasses weighing 600 to 800 lbs. closed down eight dollars per cwt. from two weeks ago. The 800 to 900 lb. choice steer beef carcasses, quoted at \$90 per cwt. have been trading two dollars per cwt. below the 600 to 800 lb. sizes—further evidence of burdensome overfat cattle and beef supplies.

WASHINGTON AND OREGON CHOICE steers \$68-68.50. Choice heifers \$73-68. Idaho mostly choice steers \$65-66. Mostly choice heifers \$64.50. Utah mostly choice steers \$65-66.
